The 12th Project 3.0

Instructions for Use

Please read these instructions completely before using the 12th Project.

The 12th Project 3.0 consists of nineteen modules of which twelve are designed to activate virtual chakras located on the quantum plane and seven which are designed to clear and restore to health the physical chakras.

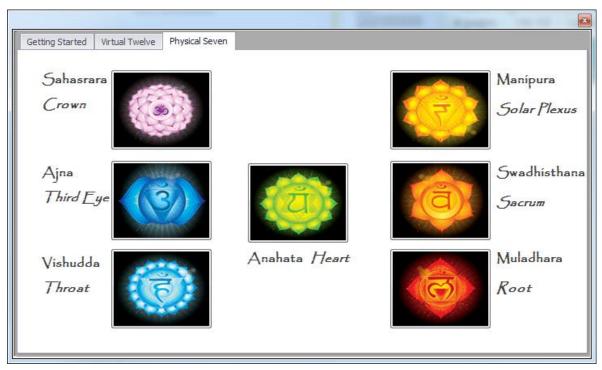

Virtual Twelve

The codes contained within the twelve virtual chakras are awakened when using the software as instructed. They contain ancient abilities that have laid dormant your entire life.

Essentially, each person that uses the software opens a link to their Akashic repository of knowledge. Each of the 12 modules will open a different chakra and no two people will experience the same awakening. The coded information received is personal to you, and you alone.

The different modules perform in similar ways. Therefore, the instructions for each are the same. Understand, each module will function as needed specific to each user. Because of this, there is no way to define precisely what information will be accessed using each module; the experience will be unique to you.

How to Use the 12th Project Virtual Twelve:

The 12th Project Modules should only be used when you are relaxed and not stressed.

Use each of the 12 modules for at least 12 days to have maximum impact.

1. Fill a glass with 3-4 ounces of water (or run your bath or shower).

2. Put your attention on the water and then click the button labeled "User Preparation." This runs for 8 seconds and is used to override any limiting belief systems programmed in your subconscious mind. Thus begins the establishing of your quantum communication link.

3. Put your attention on the water again and click on the button labeled "Water Preparation." Because water carries the memory of everywhere it's traveled, it is important to remove any memory imprints from it. This part of the software runs for 8 seconds and deprograms or 'blank-slates' the water medium.

4. The heart of the program is the button labeled, "Nucleate Chakra." This is where the connection to the quantum realm happens. Put your attention on the water, and click the button (it runs for 81 seconds). Drink the water (or bathe/shower with it) and you will be instantly connected with your vault of information. For some people, this connection will happen be very suddenly. For others it will take a couple of weeks.

How to Use the 12th Project Physical Seven:

The 12th Project Modules should only be used when you are relaxed and not stressed.

Use each of the physical seven modules twice a day for at least 3 days to have maximum cleanliness and balance

1. Fill a glass with 3-4 ounces of water (or run your bath or shower).

2. Put your attention on the water and then click the button labeled "User Preparation." This runs for 8 seconds and is used to override any limiting belief systems programmed in your subconscious mind. Thus begins the establishing of your quantum communication link.

3. Put your attention on the water again and click on the button labeled "Water Preparation." Because water carries the memory of everywhere it's traveled, it is important to remove any memory imprints from it. This part of the software runs for 8 seconds and deprograms or 'blank-slates' the water medium.

4. The heart of the program is the button labeled, "Nucleate Chakra." This is where the connection to the quantum realm happens. Put your attention on the water, and click the button (it runs for 18 seconds).

Once you have clicked the button move your attention to the chakra you are trying to clear and heal.

Drink the water (or bathe/shower with it) and you instantly feel the chakra start to open and move energy through it. Once you have worked on the desired chakra for the recommend time you will start to notice loads of things happening.

There are many great articles on the internet that explain the benefits of having your chakras cleaned and balanced. Below are some links to some of the better resources.

Here's what happens behind the scenes:

1. Light frequencies are impressed upon and consciously directed via the software to the water you will drink or use for bathing.

2. The frequencies create fundamental geometric liquid crystalline forms similar to snowflakes that when ingested, or used for bathing. This open a communication channel between your Soul (higher-self) and your human-self.

3. The 12th Project communicates on the quantum plane of existence with your virtual chakras and obtains your specific biological blueprints and superimposes them over your being.

What you can expect:

Each user will enjoy different experiences specific to them. Some will be giving vital information and knowledge, others will be enlightened, while some will have their mental and physic abilities heightened.

Additional Notes:

Proximity doesn't matter, so you don't need to take your computer into the bath or shower with you.

For bathing, begin filling your tub and go back to your computer. Put your attention on the bath water and make your selection.

For the shower just start it, put your attention on it and make the selection.

For drinking, try to obtain the purest water you can, put your attention on it and make the selection.

Take it slow. The 12th Project software is subtle, yet very powerful. Opening up a virtual chakra can be compared to giving birth. It is that deep of a connection.

With that behind us, let the fun of discovery begin.
