

TheSourxe V

Welcome to TheSourxe V

The sage's transformation of the world arises from solving the problem of water. If water is united, the human heart will be corrected. If water is pure and clean, the heart of the people will readily be unified and want cleanliness. Even when the citizenry's heart is changed, their conduct will not be depraved. So the sage's government does not consist of talking to people and persuading them, family by family. The pivot (of work) is water.

TheSourxe V User Instructions

For years, people have been trying to manifest things in a myriad of ways. You have a thought form in your head. You live it, you breathe it, and when you are ready, you release it to the universe. The universe comes by and grabs it, puts it in the light path of your future and it comes into being; but any doubt or worry destroys the thought form and you go back to the manifestation stage. The Sourxe series of products help you to consciously manifest your pure desires.

Manifestation

Manifestation - Conscious and Unconscious make up our reality. Each uses our mind... but in different ways.

Conscious Manifestation

Conscious manifestation is the act of creating the thought you want to become reality. Begin by imagining your objective in all its physical dimensions. Think of a frozen latte; how it looks, feels, and tastes. When the image is formed, you pass it to Sourxe for manifestation.

Unconscious Manifestation

You may think about something and a few minutes later it is really happening. For instance, you're thinking of a certain model of car and sometime later, the car really passes you on the street. You are watching a movie on TV, then turn it off. A few days later you turn the TV on again, and the same movie is playing at the exact place where you left off.

Imagine your reality as an infinite stream of energy, with conscious and unconscious thoughts moving in parallel. Your conscious thought- is thinking of a certain car and the unconscious manifestation- is the exact car passing you.

Enter SourxeIII which created light paths which re-wrote your future events and helped manifest intentions in 72 hours to 2 weeks.

The SourxeIV introduced 10 pre-loaded arrays of the 9 symbols of creation and also allowed users to create new arrays or edit existing arrays. It was based on tweaking the powerful Aquaware 4.0 engine and manifests intentions in 24 to 72 hours.

TheSource V Instructions

TheSource V is an easy to use computer software program. The program has a childlike consciousness. The more you interact with TheSource V the deeper your connection with it becomes. You are forming your own personal relationship with the program. It is not just another program that lives in your computer. The consciousness of TheSource V wants you to play together, work together and learn about each other. It is like a muscle that gets stronger and performs more efficiently as you use it. TheSource V helps to assist you in changing your personal reality. With water acting as a catalyst, it deploys very high vibrational energies which will, in turn, manifest your heart's desires. It also adds a shield around the light path to help manifest your desire.

Preset Array #10 is displayed in the above picture.

There is built in security within the application, so only pure intentions are manifest.

Getting Started:

TheSourxe V Instructions

- Fill a glass of water.
- Concentrate on a clear objective of your expectations, e.g. what you hope to realize through TheSourxe V.
- Choose your Array.
- Focus your attention on the water.
- Click 'Enter TheSourxe V' Button.
- Wait till the effects have stopped – approximately 50 seconds.
- Drink a small amount of charged water.
- Once you have used TheSourxe V to nucleate an intention, release it to the universe.

Note-

- *TheSourxe V will affect anything containing water-molecules, including drinks and foods, even the humidity molecules in the air. Only a single pass is required.*

What is TheSourxe V?

The brand new TheSourxe V is a fifth generation technology and has taken the previous versions a few notches up. The Sourxe V uses the even more powerful Aquaware 5 engine and updated pre-loaded arrays are even more beautiful and powerful. It also gives you the ability to change the pre-loaded arrays or create your own array of the nine symbols of creation. It creates a new way to deliver manifestations into your life.

As you enter TheSourxe V you enter a world not limited by your senses...a world as infinite as your imagination... Think outside 'The Box' as you enter TheSourxe V.

We are surrounded by energy, levels of vibration, confirmed by science, and our intuition. As ever-expanding beings, we strive for ever higher vibrational energy, just as we seek good over evil or light over darkness.

What your senses perceive is for the most part indistinguishable from the next person, but never identical... making your reality unique. Every minute of every day your life is shaped and molded by YOU.

Allow that the Universe is governed by a Supreme Intelligence, composed of pure ENERGY and LIGHT, and that all existence is created through symbolism. Now imagine having access to that core library of symbols, the very fabric of creation itself.

You have entered TheSourxe V, known as 'The Modern Day Genie in a Bottle.' We offer it to all who want to take control of their lives and shape their own destinies. But beware, the 'Genie' only grants moral intentions.

For an extensive treatise on water, refer to an article written by Peter Warshall, titled: The Morality of Molecular Water.¹

How does TheSourxe V Work?

TheSourxe V imparts a map of your expectations and a protective shield upon the molecular structure² of the water. Ingesting this altered water in turn, frees the blocks and limitations

of your unconscious mind thereby allowing you to consciously create your desires instead of manifesting a reality from limiting belief systems stored in the unconscious.

During this process, you are directing quantum codes (with the help of TheSourxe V software) that will actually alter your path. This is done by having the codes inserted ahead of your personal time-line.

TheSourxe V programs the water with your intention for manifestation and when you drink that charged water, high vibrational material goes into your body and starts exiting the body as light rays almost immediately. The universe comes by and picks up your manifestation from the light rays.

Since the light rays are exiting the body and completely bypassing the mind, thoughts anywhere along the light path are totally protected by TheSourxe V. This is the essence, the heart, the core of TheSourxe V because the manifestation coming out of the light rays is pure. Your manifestation is shielded by the light and any worry, doubts or negative thoughts will not affect the manifestation you programmed into the water. Sourxe is picking up the manifestation from the light rays and grabbing the pureness of the vibrational rays that were programmed into the water. With these light rays completely bypassing the mind, your manifestation always comes into fruition with a speed that can be mind boggling.

If it's in your best interest and of the light, then your desired manifestation will come into fruition possibly even better than your imagination.

Note: Additional information about water crystal formation and confirmed water memory properties is available from researcher, Dr. Masaru Emoto³.

Why Water?

Human cells consist of 65-90 percent water. Vibrations traveling through water transfer energy, information, and vibrational frequency from one cell to another. OK, so how does that help me, you say. It has been demonstrated by Dr. Emoto, as well as from many other esteemed researchers and scientists, that water is very programmable.

Amazingly, water can be used to store data and when erased of previous imprints or programming, it becomes a virtual blank slate. By applying 'blank slating' to the subconscious mind, one can erase doubts, fears, blockages or burdens, including those beyond our conscious knowledge.

TheSourxe V Instructions

TheSourxe V software utilizes water as the catalyst to bring about your desired objectives. In other words – what you want to manifest and the type of life you want to live can be yours with TheSourxe V! It sounds almost magical, but believe it or not, TheSourxe V actually reprograms water to receive and execute your designated intentions.

Charging Process

Take a glass of water or a drink and place it near your computer.

- Concentrate on a clear objective of your expectations, e.g. what you hope to realize through TheSourxe V.
- Load a Preset Array from the TheSourxeV ->LoadArray Menu or use the Startup Array displayed on your screen when TheSourxe V first starts up.
 - Preset Array #2 is displayed in the screen shot above
- Play around with the symbols, changing the color or position of the symbols, interact with software with a childlike mind.

TheSourxe V Instructions

- Next, focus your attention on the glass of water and click Enter TheSourxe V button.
- Now, drink the water.
- As you taste the water you may notice a change in taste or quality of the charged water.

It only takes thirty seconds for TheSourxe V to complete the five phases: Water preparation, User preparation, pre nucleate, creating light paths and nucleating the water.

Phase One - Water Preparation

Previously stored data in the water is erased. This process will blank slate the water; to insure integrity of our new program data. This works for 3.1 seconds.

Phase Two - User preparation

This process programs the user's subconscious mind for acceptance of the intention in the charged water. This works for 3.1 seconds.

Phase Three – Pre Nucleate Water

This important phase connects with the primary water structure and starts the agreement with the conscious of the water. This works for 3.1 seconds.

Phase Four- Creating Light Paths

This important phase adds the Light Paths to your intentions. This works for 3.1 seconds.

Phase Five – Nucleate Water

This most important phase alters the molecular structure of the water, to reflect the user's expectations, and merge with the internal molecular blueprint. This works for 18.1 seconds.

TheSource V Instructions

Load Array

Load the array that you would like to work with, choose any of the 10 Preset Arrays. Any arrays that you saved (either created or changed preset Array) will also be available in this menu. Preset Array #6 is displayed bellow.

Save Array

To save an Array you created.

TheSourxe V Instructions

Changing an Array

- Start with loading an array that you resonate with, we chose to work with Preset Array #6.
- To change the location of the symbol, click on the individual symbol and drag it around.
- Right Click on a symbol to change the color of one or more symbols.
- We have changed colors and moved one symbol as is displayed in screen shot below:

Saving an Array

- To save an Array click on the TheSourxe V -> Save Array Menu Button and the following screen will display:

TheSourcex V Instructions

- ❑ You have the option to update the Active Array or keying in a new Array name.
- ❑ Enter Testone as shown below and click on the Save button.

- You will see the following message that the new name was saved successfully.

- This is also the message that is displayed when you update the active array.

Delete Array

Any array that you have updated or created and saved can be deleted by this button.

Change Symbols

You can change all the colors of the symbols by using this button.

Important Considerations

- Being calm cool and collected is the way to be when using TheSourxe V.
- Use your intuition to play around with symbols, load the Preset Arrays and see which ones resonate with you.
- If you change any symbols, remember to save the array using the TheSourxe V -> Save Array Menu.
- Behind the software is a childlike mind; as you play with it; it gets to know you better as you get to know it better.
- This iteration of the application is extremely powerful and Power level is gauged automatically by the software.

Water Quality

TheSource V works on anything containing water-molecules, such as water, drinks or food. We recommend bottled or filtered water. The cleaner the water, the stronger and more effective its programming. You may also experiment with the taste of food or wine.

Water - For Bathing or Showering

Here's another important tip: proximity doesn't matter, so you don't need to take your computer into the bathroom or shower with you!

For bathing, begin filling your tub and go back to your computer. Put your attention on the bath water and click the button.

To shower, start the program, put your attention on it, then go and shower.

Or Simply put your attention on the water in the tub or pouring from the shower head.

Programming Water for Others (Over Distances)

To help a friend, call and ask him or her to place a glass of water in their hand. Concentrate on the water they're holding and just click the TheSource V button.

Fun Suggestion

To experiment with an alcoholic drink, pour a glass of wine, and taste it before and after running TheSource V. You'll find treated wine better tasting.
